

## Functional description of our Mugger - Portal

Welcome to the Mugger-Portal <http://mugs.m-blass.de>

This Internet page (our portal) is made for collectors of Starbucks Coffee Mugs all over the world. Due to the huge amount of different series, this portal is only about „Icon 08“, „You Are Here“ and „Relief“.

Ev eryone can register for free.

When registering you can access many functions which are explained in this description. Therefore here is a short list of the most important functions:

- Manage your own collection(s)
- Information about new mug (of the three mentioned series)
- Offering a link to your collection, you can give everyone. This link shows the mugs you are owning, searching and trading
- Search for mugs which are offered and searched by other collectors
- Search for trading possibilities with other collectors
- Printable lists and Excel export
- List of discontinued mugs incl. HTF traffic light
- Link to fake guides, recommended collectors, Facebook groups and many more

Your data won't be forwarded to others.

Only registered members can access your data for the purpose of contact.

If you have any ideas, additions, questions or you've recognised mistakes, please write an e-mail to [mugs@m-blass.de](mailto:mugs@m-blass.de)

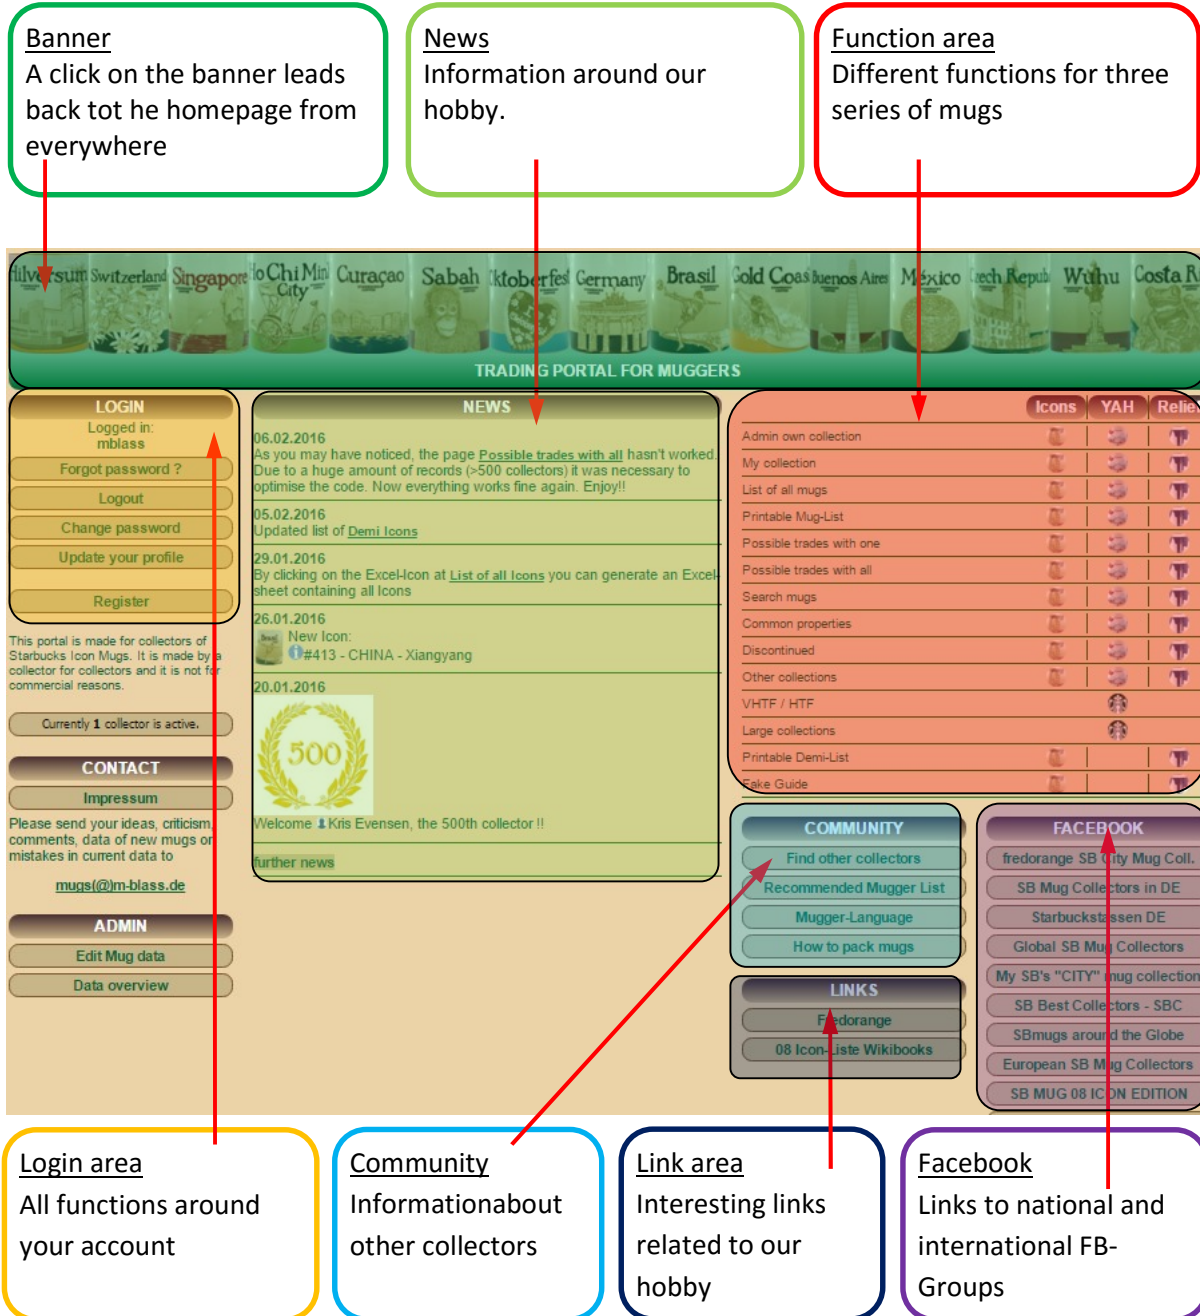

I wish you a lot of fun with the mugs and with this portal.

Michael Blass

Similar to "My collection", but instead of your data the number of owners, traders etc. is shown. As always the known link to mug details and HTF traffic light is offered. Also here you can do an Excel export and generate a printable list by clicking on the specific symbol.

## Printable Mug list

This function leads to the same printable list as the printer symbol on "List of all mugs".

Possible trades with one

Here you can check possible trades with specific collectors (if you know the nickname).

You already have selected a series (by clicking on the respective icon), here you can change it if you want. Click on the series icon and the series will be selected again.

Then see the alphabetical list and chose the nickname. Finally click on "Show".

The result list shows at first the contact data of the selected user and links to his collections.

At the bottom you can see, that „Bar1982“ offers one mug which I’m searching (Las Vegas) and searches two mugs which I’m offering (Gdansk und Stockholm).

### What does HTF/VHTF mean?

HTF is an abbreviation of "Hard To Find". VHTF stands for "Very Hard To Find".

It means mugs, which are not available in shops anymore and / or production is discontinued.

We defined 4 levels:

- Impossible:** discontinued or never released and <30 Users on www.fredorange.com owning it
- Very rare:** discontinued or never released and <100 Users on www.fredorange.com owning it
- Rare:** discontinued or never released and <250 Users on www.fredorange.com owning it
- Uncommon:** discontinued or never released all others

VHTF / HTF shows all mugs which are **hard to find** and **very hard to find** (Icons, YAH, Relief). Besides the link to mug details and a sorting by "impossible", "very rare", "rare" and "uncommon" you can see how many collectors own, search or trade this mug.

## Printable Demi List

For Icons and Relief a printable PDF file is available for download. Demis don't be part of the database so you can't edit them.

## Fake Guide

Also for Icons and Relief we have a Fake Guide.

It is an external link outside my responsibility but very useful for trades or online auctions.
